DATE FILED: 11/20/2022

INTRODUCTION

The plaintiff in the matter of tr33sinthew00ds v. Remotespider463 motions for subpoena documentary evidence in this case on the grounds that the defendant violated Parks Canada policy. The documentary evidence is any type of handbook that contains Parks Canada policy.

BACKGROUND

This case has been filed against Remotespider463, alleging torts of negligence, false arrest & false imprisonment because of their actions during October 22nd, 2022.

ARGUMENT

I am satisfied that Remotespider463 has violated Parks Canada policy in the process of arresting me. His immaturity in the process of an arrest shows a conflict of interest with me, which I believe is a violation of Parks Canada policy. I can also tell this is because I reported this incident to Parks Canada, and he was let off with a verbal warning. In order to prove myself, I must have the Parks Canada handbook/policy book/standard operating procedure appear.
