INCIDENT SUMMARY

The Head Instructor authorised a member of Training & Education Bureau Staff to provide notes from the academic curriculum to a Cadet who had "lost their notes" due to a hardware issue. A member of Training & Education Bureau Staff cannot provide notes from the curriculum regardless of circumstances. The Head Instructor should've informed the Instructor that he can provide notes in their own words for the Cadets lost notes rather than giving them the entire information of the curriculum.

The Head Instructor will be removed from the Training & Education Bureau, subsequently transferring him to the Tactical Response Unit and demoted to the rank of Operative. The actions of the Instructor involved will not be receiving any disciplinary action as it was a fault of the Head Instructor. The Cadet involved will be given the benefit of doubt and will proceed onto the next course of the academy. Once their probation concludes the Operative will be placed under evaluation by Training & Education Bureau Command.

(a) | EMERGENCY RESPONSE TEAM MEMORANDUM

To whom it may concern,

Earlier this day the Emergency Response Team Leadership was notified of a pending lawsuit brought by a recently demoted T&E Sergeant against the current Director Jamie_Wight. I'd like to assure members of the public that we've thoroughly examined the Discplinary Action issued by Agency Captain Jamie_Wight and we stand by his judgment.

Members of the Training & Education Division and particularly Command Members are held to a high standard; The Sergeant's lack of adequate judgment placed the integrity of the Academy at risk and as Administrators, we must ensure all Instructors are maintaining the high standards we established for them. With that being said, I'd like to stress that the Emergency Response Team will respect and follow through with any determination pushed by the court regarding this case.
